

2021-2022 VIDEO SUBMISSION CHECKLIST

TEAM ADVISOR: Please give this Video Submission Checklist to your team to complete and return to you. As the team advisor, you will be required to provide the information included on this form when you upload and approve your students' video(s).

TEAMS: You are responsible for ensuring (1) your video was created entirely by your group, without any unapproved outside help and (2) all outside content (e.g. music, sounds, videos, images) is eligible for use in the Math Video Challenge. Please complete this form and submit it to your team advisor, who will be required to confirm and provide this information upon submitting your video in the Math Video Challenge. Learn more in the Outside Help and Copyrighted Materials Guidelines at www.mathcounts.org/mvcteams.

Team Name _____ Handbook Problem # Solved _____

Video Title (to be posted online publicly) _____

Video Description (100 words or fewer recommended) _____

CONTENT: Many videos submitted to the Math Video Challenge contain content not created by the 4 team members, but to qualify, that content must follow the rules and, in some cases, be properly cited.

Our video uses or includes... (select any/all that apply)

- 1. Content from the Public Domain.
- 2. Content that is Royalty Free with no restrictions.
- 3. Content licensed through Creative Commons with Attribution with no restrictions (CCANR), and we confirm all included CCANR works are properly cited in our video.
- 4. Content from a non-team member created specifically for this video, and we understand our team will be required to provide proof of this upon request.
- 5. None of the above. All content in our video is entirely original and created by the 4 team members.

Unsure about what all this means? Check out the Copyrighted Materials Guidelines at www.mathcounts.org/mvcteams.

If you selected 1, 2 or 3, please complete the required corresponding section(s) below.

1. Please list the **Public Domain** works and where they were obtained.

2. Please list the **Royalty Free** works and where they were obtained.

3. Please list the **CCANR** works and where they were obtained.

Check this box to confirm this video adheres to all Math Video Challenge contest rules, including those pertaining to outside help.
