MATHCOUNTS LAUNCHES SECOND SCHOLARSHIP RECOGNIZING ALUMNI COACHES

For alumni and support underserved communities, Community Coaching Scholarship.

This $3,000 scholarship will be awarded to a school whose coach is an MATHCOUNTS alumnus and meets the following criteria:

- Receives school-wide Title I funding or is located in a ZIP code where a majority of residents are from groups giving Tuesday 12/1.
- The application will open in March 2021, and the winner will receive resources in August to begin coaching students during the 2021-2022 school year.

Check back at mathcounts.org/alumni in March for more details!

MATHCOUNTS will continue to award the annual Alumni Scholarship, which recognizes classes as middle school students and, on top of that, join our new MATHCOUNTS alumni Facebook group!

For the safety of all participants, the MATHCOUNTS Competition Series has been modified for the 2020-2021 school year:

- MATHCOUNTS National Competition will take place online.

• Competition. Through December 1, registration costs $35 per student ($17.50 for Title I schools).

• The next practice competition will open on November 15. 4 online practice competitions.

• MATHCOUNTS can register as 1,300+.

The Most Challenging Problems SOLVED:

REGISTER BY 12/1 AT MATHCOUNTS.ORG/COMPREG!

SCHOOL SPOTLIGHT: ISLAMIC SCHOOL OF GREATER KANSAS CITY

Coach Diana Elkishawi explains that their MATHCOUNTS experience has gone beyond the math club, I realized for the first time that math was never boring or hard; it was a matter of approach to competing that he created a "most spirited" award just for them, which in turn made them even more excited to participate each year. Since then, four Islamic School students have advanced to the state level.

"I want everyone out there to know, whether you're a Title I school or not, you're only as good as the coach you have," said Elkishawi. "And the more you can give the students, the more you can help them..."

THE NATIONAL MATH CLUB KEEPS STUDENTS AND TEACHERS CONNECTED

The National Math Club provides free games, activities and problem sets that make it easy for teachers to host an after-school club. This year, MATHCOUNTS is adding a mailed kit with game supplies, pencils and a suggested activities calendar for quick planning.

THE MATH VIDEO CHALLENGE HELPS STUDENTS COLLABORATE REMOTELY

The Math Video Challenge has begun its 2021 program year, maintaining the well-received changes implemented in 2020—expert judging for every video submission, extra awards and new resources. To meet or film in person. Educators at schools and non-school groups can register for free now at mathcounts.org/clubleaders.
The skull accounts for 15% of the weight of A.T. Rex's bones.

A.T. Rex's bones account for 21% of its total weight.

What is the total weight of A.T. Rex whose skull weighs 570 pounds?

Express your answer to the nearest whole number.
