his/her outlook on math and influenced his/her academic or professional pursuits.

The Math Video Challenge is a national program that challenges students to develop their math, communication and technology skills in a collaborative video project. Created in 2011, it is a completely free program and is open to all sixth-, seventh- and eighth-grade students. Students can participate through their school or through a non-school group. At the Math Video Challenge Finals in May, the 224 Mathletes at the National Competition vote to determine the First Place Video. The 4 student team who created the winning video each receive a \$1000 scholarship. All videos created during the contest are added to the Math Video Challenge online archive, providing a free educational tool for students and teachers.

The MATHCOUNTS Competition Series is a national program that provides students the opportunity to compete in live, in-person contests against and alongside their peers. Created in 1983, it is the longest-running MATHCOUNTS program and is open to all sixth-, seventh- and eighth-grade students.

The MATHCOUNTS Competition Series typically awards scholarships and awards for winners and runner ups, including the \$20,000 Donald G. Weinert Scholarship for the National Champion.
