

MATHVIDEO CHALLENGE

produced by **MATHCOUNTS**[®]

A completely free technology and math competition that challenges teams of students in grades 6-8 to create an original video that solves a math problem in a real-world setting—building their problem-solving and 21st century skills.

GRADES 6-8. All MATHCOUNTS programs are for middle school students.

SCHOOLS & NON-SCHOOL GROUPS. Middle schools, plus extracurricular groups like Girl Scouts and Boys & Girls Clubs can join.

FREE. Teams receive a free mailed kit with a book of math problems and a smartphone tripod, plus numerous online resources.

SEPTEMBER – MAY. Registration opens in the fall and teams must submit their videos by early March. Contest finals take place in May.
